**Your device or gateway**

We start with your device, be it a sensor, a gateway or something else. To test out how to get it connected, search our recipes.

**MQTT**

Your device data is sent securely up to the cloud via the open, lightweight MQTT messaging protocol.

**REST & Real-time APIs**

Use our secure APIs to connect your apps with the data coming from your devices.

**IBM Watson IoT Platform**

This is the hub of all things IBM IoT. This is where you can setup and manage your connected devices so that your apps can access their live and historical data.
