Project Name	Industry specific intelligent fire management system
Maximum Mark	2

CLOUD SERVICES:

It is basically used to handle the cloud storage and data functions carried out in the system technology

IBM CLOUD SERVICE :

The screenshot displays the IBM Cloud Catalog interface. At the top, there's a navigation bar with the IBM Cloud logo, a search bar, and user information (Jeevanantham Kaliyan...). Below the navigation bar, the main content area is titled 'Catalog' and features a search bar. A sidebar on the left lists various categories and their counts: Recommended products (6), Compute (30), Containers (9), Networking (30), Storage (20), AI / Machine Learning (17), Analytics (10), Blockchain (1), Databases (28), Developer tools (25), and Logging and monitoring (3). The main content area shows a grid of product cards. The first card is 'Analytics Engine' by IBM, which allows submitting Apache Spark applications. The second card is 'AnonTech ViziVault Platform' by Anon Technology, Inc., for managing personal information. The third card is 'API Connect' by IBM, an enterprise-grade platform for creating and managing APIs. Each card includes a brief description and a list of features or supported standards.
